

ESPION FIRST QUARTER SALES UP 122% FROM 2005; ANNOUNCES SALE TO GULF SOUTH TECHNOLOGY SOLUTIONS, LLC

(Costa Mesa, CA) April 28, 2006 - Email security appliance maker ESPION International, Inc. (OTC: EPLJ) is pleased to announce that Gulf South Technology Solutions, LLC has purchased an Espion Interceptor email security appliance. This, along with the other units sold in the first quarter contributed to a 122% increase in gross sales from the same period in 2005. The ESPION Interceptor offers versatile anti-spam, anti-virus, and intrusion blocking devices, and now uses advanced encryption technology to deliver sensitive information securely and confidentially, ensuring secure transmission of financial records as well as meeting new government regulations (HIPAA) protecting personal health information.

Mr. James Moak, President of Gulf South Technology Solutions, LLC commented, "after researching other solutions in the spam filter and secured email market, we decided to evaluate the Espion Interceptor. During our evaluation, we noted the Interceptor's exceptional ability to block spam better than any other product. We have chosen the interceptor as the product for our customers based on performance and price. The administrative interface is easy to use as well which also influenced our decision."

"We are honored to partner with Gulf South Technology Solutions, LLC, a recognized leader in IT Consulting, Networking, and Hosting Services", stated Drew Burdsall, Espion's CEO and Founder. "We expect sales to continue to grow. The introduction of the new Interceptor with [MX] Lock encryption technology has added functionality, enabling our device to meet HIPAA compliance and other secure email needs of organizations. This, coupled with our recent alliance with Marketlink Technologies (www.marketlinktech.com), makes me extremely excited about introducing Espion Interceptors to many more customers around the country."

About Espion International, Inc.

Espion International, Inc., a Costa Mesa, CA-based company with Research and Development located in Baton Rouge, Louisiana, is a leader in the development and deployment of Artificial Intelligence (A.I.) based solutions for email gateway and network security. The A.I.
