

## **Espion Partners With Remington Associates to Battle the \$25 Billion Corporate Espionage Problem**

Remington Associates to Resell Interceptor Email Security Product

COSTA MESA, CA--(MARKET WIRE)--Jul 11, 2006 -- Espion International, Inc. (Other OTC:[EPLJ.PK](#) - [News](#)), a leader in the fight against email based viruses, spam, and outbound threats of corporate espionage announced a partnership with Remington Associates, LTD., a Schaumburg, IL based Value Added Reseller ("VAR") and Microsoft Security Gold Partner. Espion has developed artificial intelligence ("AI") software that learns to recognize a company's sensitive data in its email communication. Once recognized, this data can either be blocked, or the message can be sent securely using advanced encryption technology.

Remington Associates ("Remington") has provided consulting and project management in the information security sector for nearly ten years. Remington will be introducing Espion's Interceptor with Email Encryption to their many customers that are in need of an encryption solution to monitor and protect the transmission of sensitive corporate data, as well as meet government regulatory requirements under HIPAA, GLBA, and Sarbanes-Oxley.

"With growing regulation concerns and the importance of securing personally identifiable information as well as intellectual property, encrypting corporate communications, especially email, has become a necessity. We are thrilled to have Espion as a partner fulfilling the email encryption market," stated Terry Kurzynski, Managing Partner of Remington Associates, Ltd.

"Remington is a leader in Security and IT Governance issues, and has built an impeccable reputation in their field. We are very excited to be working with them, and honored that they have chosen the Espion Interceptor as an encryption solution for their clients," commented Stephen Dow, CEO of Espion International, Inc. Mr. Dow continued, "According to the U.S. Chamber of Commerce, corporate espionage costs U.S. shareholders at least \$25 billion a year in intellectual property losses, and the Interceptor's artificial intelligence ensures that secret corporate or personal information does not leave a company's network."

About Espion International, Inc.

Espion International, Inc., a Costa Mesa, CA-based company with Research and Development headquartered in Baton Rouge, Louisiana, is a leader in the development and deployment of Artificial Intelligence (AI) based solutions for email gateway and network security. The AI "brain" boosts the performance of the current Espion product range, which offers appliances that are easy to install for organizations from five to five million users, providing email gateway security, anti-spam and secure, encrypted email.
